**Damages**

The general contractor is held responsible for damages to roadway or other property adjacent to the site. Precautions should be taken to avoid damaging shoulders, curb, and guttering, and landscaped rights-of-ways when moving vehicles off roadways onto site. The cost for repairing damages may be an additional fee.

If damage occurs, the cost of repairs to roadways and sidewalks or other property will be an additional fee levied against the contractor. THE VILLAGES IN ST. JOHN'S WOODS Property Owner's Association will undertake necessary repairs when all construction has been completed.

**Violations**

Periodic inspections shall be made of the construction site. Violations of contractor guidelines will result in written notification to the contractor with copy to Owner. If violation is not corrected within 3 business days of notification date, a fine will be assessed per violation and additional fees will be charged. Said fine(s) will continue to accrue daily for each violation not cured. The contractor is responsible for paying for any damages. The ARB, in its sole discretion, may set a fine schedule for the various violations, in absence of a separate fine schedule; the fine shall be \$100.00/day for each violation, unless a higher amount is required herein.

I agree that I, my worker, my subcontractors and their workers will abide by the guidelines as set forth in the document and in the Architectural Review Board site inspection reports. It is further understood that failure to take prompt corrective action will result in possible deductions from my construction deposit and or additional charges.
